

Shipping name of the hazardous material	Hazard class of the hazardous materials	Characteristic properties of the material
Barium nitrate	Oxidizing material	If involved in a fire will greatly intensify the burning of combustible materials.
Calcium nitratedo	Do.
Charcoal briquets	Flammable solid	Contact with water may cause self heating.
Coconut meal pellets (or copra pellets) containing at least 6 pct and not more than 13 pct moisture and not more than 10 pct residual fat content.	ORM-C	Subject to spontaneous heating by biological decay or by oxidation.
Copra, drydo	Susceptible to spontaneous heating or fire from spark or open flame.
Ferrophosphorus	ORM-A	May evolve poisonous gas (phosphine) in contact with moisture.
Ferrosilicon, containing less than 45 pct or more than 70 pct silicon.do	May evolve poisonous and flammable gases (arsine/phosphine) in contact with water, acids or alkalines.
Ferrous metal borings, shavings, turnings, or cuttings (excluding stainless steel).	ORM-C	Susceptible to spontaneous heating and ignition.
Fishmeal or scrap, ground and pelletized (mixture), containing 6 to 12 pct moisture and no more than 18 pct fat by weight.do	Do.
Lead nitrate	Oxidizing material	If involved in a fire will greatly intensify the burning of combustible materials.
Lime, unslaked	ORM-B	Evolves heat on contact with water.
Magnesium nitrate	Oxidizing material	If involved in fire will greatly intensify the burning of combustible materials.
Petroleum coke, calcined, at 130 °F or above	ORM-C	Susceptible to spontaneous heating and ignition.
Petroleum coke, uncalcineddo	Do.
Postassium nitrate	Oxidizing material	If involved in a fire will greatly intensify the burning of combustible materials.
Radioactive material, low specific activity (LSA)	Radioactive material	Radiation hazard from ingestion, inhalation and contact with mucous membranes.
Sawdust	ORM-C	Susceptible to fire from sparks or open flames.
Sodium nitrate	Oxidizing material	If involved in a fire will greatly intensify the burning of combustible materials.
Sodium nitrate, potassium nitrate mixture; 67 pct Sodium nitrate, 30 pct Postassium nitrate and not more than 3 percent miscellaneous inorganic compounds.do	Do.
Strontium nitrate (not radioactive)do	Do.
Sulfur	ORM-C	Dust forms explosive mixtures with air.
Tankage, garbage or rough ammoniate solid, containing 7 pct or more moisture.do	Susceptible to spontaneous heating and ignition.

NOTE: Definitions of hazard classes of hazardous materials are found in 49 CFR 171.8 and 49 CFR 173.500.

(b) A mixture or blend of two or more cargoes, one or more of which is listed in paragraph (a) of this section, will be treated as an unlisted cargo and specific authorization by the Commandant, in accordance with §148.01-9, for shipment in bulk is required.

§ 148.01-9 Filing of special petition for special permit.

(a) A petition for authorization to transport an unlisted cargo or to use alternative procedures must be submitted to the U.S. Coast Guard (CG-522), 2100 2nd St. SW., Stop 7126, Washington, DC 20593-7126, and must contain the following minimum information:

(1) The regulatory provisions involved.

(2) The justification for the proposed shipments or alternative procedure, including any reasons why the current regulations are not appropriate, why the public interest would be served by the proposal, and the basis upon which the proposal would provide an equivalent degree of safety to those shipments conducted in accordance with the current regulations.

(3) A detailed description of the proposal, including when appropriate, drawings, plans, calculations, procedures, test results, previous approvals or permits, and any other supporting information.

(4) The chemical name, common name, hazard classification for properties (chemical and physical), and

Coast Guard, DHS

§ 148.01-15

characteristics of the materials covered by the proposal, including composition and ingredient percentages (specified by weight) if a mixture.

(5) Any relevant shipping or accident experience.

(6) A description of the vessel or vessels to be employed for the shipments and the U.S. ports to be involved.

(7) A statement or recommendation regarding any changes to the regulations which would be desirable to obviate the need for similar permission from the Commandant.

(b) Unless there is a good reason for priority treatment, each proposal is considered in the order in which it is received. To permit timely consideration, proposals should be submitted at least 45 days before the requested effective date.

[CGD 83-067a, 49 FR 16794, Apr. 20, 1984, as amended by CGD 95-072, 60 FR 50465, Sept. 29, 1995; CGD 96-041, 61 FR 50731, Sept. 27, 1996]

§ 148.01-11 Special permits; standard conditions.

(a) Each person to whom a special permit is issued under the terms of § 148.01-9 shall comply with all requirements of this part except as specifically provided by the terms of the special permit.

(b) Unless otherwise specified in the special permit, each shipment made under special permit must comply with the following:

(1) Each shipping paper issued and the dangerous cargo manifest prepared in connection with such shipment must bear the notation "CG Special Permit No. *" with the * to be filled in with the assigned special permit number.

(2) Each person to whom a special permit is issued shall furnish a summary of experience to the U.S. Coast Guard (CG-522), 2100 2nd St. SW., Stop 7126, Washington, DC 20593-7126, before the date of expiration of the permit and when any amendment to the special permit is requested. The information must include the number of shipments made, tonnage of each shipment, and what vessel's and U.S. Ports were involved. In addition, an immediate report must be submitted the U.S. Coast Guard (CG-522) in the event of any casualty, accident, or damaging incident which occurs when transporting solid

hazardous materials in bulk under the terms of a special permit.

(3) A copy of the special permit, kept current, and any amendments thereto, must be on board each vessel while transporting solid hazardous materials in bulk under the terms of a special permit. The special permit must be kept with the dangerous cargo manifest (§ 148.02-3).

(c) Each permit is subject to suspension or revocation for cause by the U.S. Coast Guard before its expiration date.

[CGD 83-067a, 49 FR 16794, Apr. 20, 1984, as amended by CGD 95-072, 60 FR 50465, Sept. 29, 1995; CGD 96-041, 61 FR 50731, Sept. 27, 1996]

§ 148.01-13 Assignment and certification.

(a) The National Cargo Bureau, Inc., is authorized to assist the U.S. Coast Guard in administering the provisions contained in this part that are applicable to the transportation of solid hazardous materials in bulk on vessels with respect to:

(1) Inspection of vessels for suitability for loading such materials in bulk;

(2) Examination of stowage of such materials loaded in bulk on board vessels;

(3) Making recommendations as to stowage requirements applicable to the transportation of such materials in bulk; and

(4) Issuing of certificates of loading, setting forth that the stowage of such materials in bulk is in accordance with applicable regulations contained in this part.

(b) Certificates of loading from the National Cargo Bureau, Inc., are accepted as evidence of compliance with the applicable provisions of this part with respect to the transportation of solid hazardous materials in bulk on board vessels.

§ 148.01-15 Right of appeal.

Any person directly affected by a decision or action taken under this part, by or on behalf of the Coast Guard, may appeal therefrom in accordance with subpart 1.03 of this chapter.
